

## Teleconsult Sdn.Bhd pleased to announce that we have secured a Drone Pipeline Inspection Project for TOTAL in Brunei Darussalam

Teleconsult Sdn.Bhd is pleased to announce that we have secured a Drone Pipeline Inspection Project in Brunei Darussalam for Surface/Geotechnical Survey, to conduct a route inspection and drone survey from BLNG Lumut to SCOT. For TOTAL E&P Borneo B.V.

Work also includes,

1. Overflying the whole route to obtain an end to end top down video of the Right of Way (ROW) for the pipeline
2. Identification of extent of any flooding
3. Identification of any access issues to ROW
4. Identification of any incursion into ROW
5. Provide potential locations for additional access to pipeline ROW
6. Provide GPS locations/labels of key features
7. Close-up (still photos) of any infringement issues. Soil erosion, oily sheens on water
8. Provide GPS locations of infringement issues on ROW
9. Superimpose survey results onto existing TOTAL survey drawings to
