

## More Contract Awarded to Teleconsult by PT Mega Akses Persada (Fiberstar)

PT Teleconsult Nusantara has further contracts by PT Mega Akses Persada (Fiberstar) for Fiber To The Home (FTTH) and Survey Design OSP Project. PT Mega Akses Persada will be given access to our TIMS system, to store all project data

The additional work will be started by the end of November 2017 and will be conducted in,

Bali : 209 KM (FTTH)

Surakarta - Pekalongan : 300 KM (UJB)

Surabaya : 2120 Homes Passed (Survey Design OSP)

TIMS is an award winning software developed in Brunei Darussalam, that is a GIS based system with a fully customisable GUI, that can be used to Project Manage and store any data, in any format, for the Project Team. The Project Team can upload the data directly from the field and Client can access the system immediately.
